

Homework 4
EECS263 Cloud Computing
(Due on 4/23/18 in the class)
(10 points)

Prof. Mukesh Singhal

Please answer all of the following questions:

1. Define big data. What are the three properties of large data? Explain each in two sentences. (1+1+2)
2. State the DBSCAN algorithm for data clustering. What is difference between "Precision" and "Recall"? (2+2)
3. Why are Clouds suitable for multi-media systems? (2)
